**Welcome, Overview & Check-In**

***Reminders from the kick-off meeting:***

1. We are to focus on the “What” NOT the “How.” Our task is to dream big and think about how we might transform tribal and community ownership over the next decade or so.
2. The only type of systems change we are being asked to consider is transformational change, that which includes practices, processes, and products that anticipate, reflect, or define the needs of a significantly different system or environment.
3. Transformational change must:
  - a. Be systemic and apply to all students, schools, employees, etc.;
  - b. Not require resources beyond our direct control; and
  - c. Produce measurable results that can be benchmarked against higher performing states and countries.
